Georgetown, SC 29442

Publication Date: January 2011

Description

Abstract: The target watershed reflects a geographic region based on sub-watersheds within the Winyah Bay drainage basin that are likely to have the most direct impact on the NI-WB NERR. The target watershed is particularly useful in addressing watershed scale issues including Best Management Practices, land conservation priorities with partners, habitat protection and invasive species control.

Purpose: This map shows the target watershed area for the NI-WB NERR.

Time Period

Date and time: January 2011 (publication date)

Status of the Data

Progress: Complete

Maintenance & update frequency: As needed
